Obtained____/30****Q.1 (A) Read the following paragraph and tick the correct option****(4)**

Children in different parts of India use various ways to reach their schools. In places with rivers like Assam and Kerala, they use boats or vallams. In snowy areas like Kashmir, children use sledges. In deserts like Rajasthan, camels are used. Some children cross bamboo bridges or walk through forests. No matter how far or difficult the journey, children love going to school.

Animals also look different. One way to know more about animals is by looking at their ears. Animals like dogs, cows, and tigers have ears that we can see. These animals give birth to babies. Animals like snakes, frogs, and birds do not have visible ears. Most of them lay eggs. By observing ears and body coverings like fur, feathers, or scales, we can learn more about different animals.

i) Which animal is used by children in deserts to go to school?

- a) Horse b) Camel c) Elephant d) Donkey

ii) What is a vallam?

- a) A wooden cart b) A kind of bus c) A small wooden boat d) A type of animal
